# Installation guide for Firefox browser devices

The Firefox browser does not use the central certificate store and has its own.
Visit cert.isd186.org from your device via the Firefox browser and download/save the certificate file to your system.
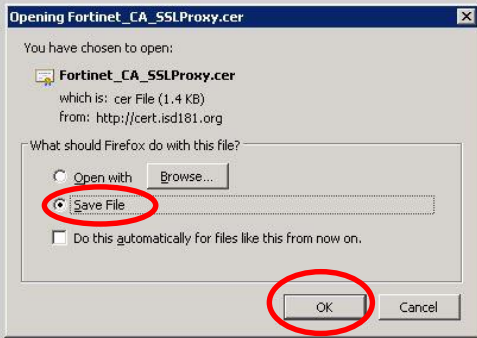

ISD181 Secure Certificate Download

Opening Fortinet_CA_SSLProxy.cer

You have chosen to open:

🖹 Fortinet_CA_SSLProxy.cer

    which is: cer File (1.4 KB)
    from: http://cert.isd181.org

What should Firefox do with this file?

○ Open with   Browse...

● Save File

☐ Do this automatically for files like this from now on.

OK   Cancel

image link below and follow the installation
instructions for your device in the links provided
above.

Downloading Certificate

You have been asked to trust a new Certificate Authority (CA).

Do you want to trust "FortiGate CA" for the following purposes?

☑ Trust this CA to identify websites.

☐ Trust this CA to identify email users.

☐ Trust this CA to identify software developers.

Before trusting this CA for any purpose, you should examine its certificate and its policy and
procedures (if available).

View   Examine CA certificate

OK   Cancel

Your Firefox browser now trusts the ISD186 certificate and you will no longer see any invalid certificate warnings when visiting SSL enabled websites.
